CORRESPONDENCE.

A WARNING.

(To the Editor of the CHINA MAIL.)

SIR,—The First Sea Lord, speaking at the Lord Mayor's Banquet, pledged himself personally to an assurance to the nation that the British Navy was adequate, efficient, and in instant readiness for war. That assurance we accept without demur, for we know that it could only be based on a full knowledge of what up to then were the ascertained programmes and proposals of other Powers. Since that date, however, the German Government has submitted to the Reichstag a measure which foreshadows a very considerable expansion to the present strength of the German Navy. The proposals this measure embodies are as follows:—

1. It provides that Germany shall in future lay down annually four armoured ships, in lieu of three as has been heretofore customary.

2. Under it the German annual expenditure on the Navy that now stands at £13,000,000, will, by 1911, have attained to a sum of £23,000,000.

3. Apart from this there is to be extra expenditure on the widening of the Kiel Canal, and it goes without saying that the new ships Germany will lay down will greatly surpass in fighting power the present battleships that they will eventually replace.

4. The measure provides, with the method that is so characteristic of the most perfectly organised war Power in the world, that every armoured unit is to be replaced by an Ersatz within twenty years.

It is frequently stated that foreign programmes are often very much "on paper." There is in that assertion a modicum of truth, but we know, as regards the proposals which the German nation formulated and sanctioned in 1900, that they have been fully carried out, and that every unit projected in the measure that the Reichstag then approved has been punctually laid down up to 1906. In this connection we would wish to draw the serious attention of the public to the important precedent set by Lord Goschen—the then First Lord of the Admiralty—in 1898. The Cabinet and the Admiralty having ascertained, after the introduction of the estimates for that year, that an abnormal expansion in Russian naval expenditure had been sanctioned, replied in the month of July, bringing before the House a supplementary programme providing for the commencement of four battleships and four armoured cruisers in addition to the normal programme of the year. It is not overstating the case to say that the laying down of these vessels probably prevented the spread of the conflagration that soon followed in the Far East, by so increasing our naval power that Great Britain, whose interests were most vitally concerned, became practically the arbiter of the situation.

It is an undisputed fact that since the estimates of 1904-5 our naval estimates

NEW FRENCH MACHINE GUN.

650 Shots A Minute.

PARIS, Dec. 6.

The French military authorities and unofficial military critics who lately have been greatly interested in the case of Major Fitzgerald and his quickfiring gun admit the value of the major's invention, but consider the new French pattern of quickfiring gun—just turned out by the National Arms Factory of St. Etienne—to be quite superior to it. The few guns of the new pattern that have been turned out are at Versailles, where they will be tested within the next few days before a committee of officers attached to the St. Etienne Arms Factory. A new quickfiring gun has been promised for several years, but it was not until a few months ago that the design was given to the makers. Since the pattern of the Rimailho field gun was finally decided on two years ago, interest in the War Office has been concentrated on quickfiring guns, and—although even the general characteristics are kept secret—it is said that many improvements have been made to the original model submitted to the War Office. According to a despatch from St. Etienne, the new gun fires at least 650 shots a minute, and the temperature never rises above 113 deg. Fahrenheit. If these figures may be accepted, the new French gun would appear to be 45 per cent. more rapid in its fire than the Fitzgerald weapon.

THE NEW FRENCH REMEDY

TRADE THERAPION MARK

* This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Vulpeau, and others, combines all the desiderata to be sought in a medicine of the kind and surpasses everything hitherto employed.

THERAPION No. 1

in a remarkably short time, often a few days only, removes all discharges from the urinary organs, superseding injections, the use of which does irreparable harm by laying the foundation of stricture, and other serious diseases.

THERAPION No. 2

for impurity of the blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION No. 3

for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION is sold by all the principal Chemists and Merchants throughout the World. Price in England 2/9 & 4/6. In ordering, state which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word 'THERAPION' as it appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

For Sale by PRINCIPAL CHEMISTS.
